Meeting Minutes- August 22, 2019

Commissioners present – *Marcianna Caplis, Mary Dudek, Andrew MacLachlan, and Joe Rogers*

Members of the public present – *Eric Weber and Dave Weber, Heidi Johnson and Geoff LeBaron, Eric Driver, Josh Lynn*

Meeting was called to order at 7:00 pm

- RDA for tree removal at 3 Valley View Road, Eric Weber and Dave Weber. Commissioners made a Negative 2 determination. The Webers will keep tree removal equipment off of the lawn, and use erosion controls in the future if lawn is tilled up for planting native meadow species.
- NOI for 35 Village Hill Road, Heidi Johnson and Geoff LeBaron, continued from August 8. The Commission approved plans on the NOI, with conditions around erosion controls, oversight, limiting tree removal, and keeping the Commission informed about the schedule of work.
- NOI for addition at 4 Fairfield Avenue, Josh Lynn. The commissioners approved plans on the NOI, with conditions erosion controls, access for the Conservation Commission to inspect site, and treatment of wash water from concrete work. The project has no negative impact as there is benefit from removal of driveway and planting a large number of native species along outer riverfront area.

- The Commission received an enquiry from Hiroshi Akimoto about a lien on a deed from an Order of Conditions from 40 years ago. The Order was for construction of a gravel drive with twin 4 foot by 6 foot box culverts. Though it is not possible to see how the work was done, the commissioners want to look at the function and maintenance of the culvert in question and have the applicant submit a DEP Form 8A (Request for a Certification of Completion.)
- The hearing for the NOI for the 10 River Road solar array was continued to September 12. The Commission hired a consultant to do a peer review of the NOI, and RK Designs will be notified of the consultant's bill for services.

Meeting was adjourned at 9:05

Respectfully submitted,
Melinda McCall
