

## **Public Safety Complex Key Issues**

**As revealed by small group meetings held by Williamsburg Public Safety Complex Committee (April-May 2016)**

1. Concerns about the cost of the Public Safety Complex
  - a. impacts on property taxes
  - b. impacts on long-term municipal fiscal health
2. Is the proposed architectural program (size and number of spaces) correct?
  - a. Is it too big? Too small? (Especially the number of bays)?
  - b. Will it suit the fire and police departments 20-30 years down the road?
3. How will building a public safety complex impact other municipal facility need?
  - a. by opening or constraining spaces
  - b. impacting availability of funding for other projects
4. How would siting on James School lot affect other potential uses of that site?
  - a. Other town uses
  - b. Development for residential and/or commercial use
  - c. Park/ open space
  - d. Public parking (town parking and/or park and ride)
5. If on James school site, how can the Public Safety complex visually complement the James School?
  - a. Potential conflict between attractive design and lowest reasonable cost
  - b. Opportunities to improve site design
