Meeting called to order at 5:00 p.m.

Water Restrictions:

Eric Cerreta reported that the test wells show water 7 ½' below the surface. People have restricted themselves washing their cars and watering their lawns and the commission does not want to impose any water restrictions at this time.

BOD & TSS Numbers:

The numbers are still not comparable with Northampton's numbers. The commission discussed testing in other spots and what to do next. (EC) would like to have Donna Lascalia in again to discuss the numbers again. The commission would like to look at the brewery and what days it does a wash down to see if any higher numbers correlate with that activity. The brewery is taking all waste off site on a trailer.

Water/Sewer Regulation Letters:

Paul Kennedy is working on a letter.

Water Operations:

(BO) reported that 200,000 gallons were used for Lashway's mill fire. He also reported that the reservoir is really low with the valve not being able to be shut completely. He also reported that Nels Christensen would like to know what kind of service line he has. Highway may dig up the corporation to see.

Motion made and seconded and unanimously voted to sign the water and sewer warrants.

Next meetings will be September 13 and 27, 2022

Motion made, seconded, and unanimously voted to adjourn at 5:51 PM.
