	James Hyslip	x	
	Don Hultman, Clerk	x	
	Paul Kennedy	x	
	Roger Bisbee	x	
	Brenda Lessard, Secretary	x	
	Others Present:		

Meeting called to order at 6:30 p.m.

- Matt Chase from VHB was in to report on the MassDOT's project on Rte 9 and the town's water main which lies under Rte 9. The Commission would like to replace the current 8" main with a 12" main when the state does over Rte 9. There are cost savings in design and such. DOT does not like right of entry. Ancillary work would be done by DOT, the actual work and material would be paid by the Town. It would follow along with the state contract and we would have to reimburse the state. The project appears to be taking place in 2025. We would need to be ready to go by Fall 2024. There may need to be Geotech work. (jh) will follow up with Matt and bring ideas back on how to proceed.
- No response from letter sent to Northampton re: IMC
- (jh) is not quite finished with the paperwork for the dam inspection at the Unquommonk Dam.
- Water Superintendent-tabled to next meeting
- Grinder pump was sent out for repair. It will be approximately \$1253
- Discussed need to hire outside firm to do water main connections along South Main St. and Fort Hill due to cost.
- Motion made and seconded to sign the water and sewer warrants. Motion so voted.
- Cell phone-need for a water cell phone to do water reads and trouble shooting. Charlene will be consulted on how to proceed.

Respectively submitted,
Brenda Lessard, Secretary

Eric Cerreta

James Hyslip

Don Hultman

Paul Kennedy

Roger Bisbee
